70 percent of households in Ladakh covered under PMJAY scheme

Ladakh Health Department targets June 21, 2022, to cover the rest

Reach Ladakh Correspondent

LEH: Principal Secretary, Health and Medical Education Department, UT Ladakh, Dr. Pawan Kotwal reviewed the progress on the inclusion of families into the Universal Health Coverage Scheme (Health Insurance) not covered under the Socio-Economic and Caste Census data (SECC-2011) on May 25.

It was stated during the meeting that almost 70 percent of the households in Ladakh have been covered under the Pradhan Mantri Jan Arogya Yojana (PM-JAY) and the Universal Health Coverage scheme of UT Ladakh.

The Administration of UT Ladakh introduced the Universal Health Coverage (UHC) Scheme in convergence with Pradhan Mantri Jan Arogya Yojana (PMJAY) scheme in December 2020 to cover families and individuals through a digital, portable, and cashless health insurance scheme who were not covered

under earlier launched PMJAY.

Hailing it as a very good welfare scheme, Principal Secretary said that a family gets the benefit of Health coverage of ₹ 5 lakh through the usage of the Golden card issued under the PMJAY or UHC scheme. Apart from treatment costs at the hospital, the scheme also covers expenses incurred on diagnostic tests, medicines, pre-hospitalization, post-hospitalization expenses, and covid-19 treatment among others.

Highlighting the importance of the Golden card, the Principal Secretary said, it raises the confidence level of an individual as it gives him/her a sense of financial security. He said it was the administration's responsibility to ensure that the cards are distributed to all the eligible beneficiaries.

Deputy Commissioners, Leh, and Kargil

28th Ladakh Monlam Chenmo, great prayer of world peace, concludes

Stanzin Dasal

LEH: The 28th Ladakh Monlam Chenmo, great prayer held annually for world peace was concluded on May 25 at Dharma centre, Choglamsar.

Around 1200 monks and nuns from different monasteries of Ladakh congregated in five day long prayers organised by Ladakh Gonpa Association.

Ladakh Monlam Chenmo was first initiated in the year 1991 by His Eminence Togdan Rinpoche since then the prayer has been held annually in the 3rd month of the Tibetan lunar calendar. Along with world peace, special prayers are also made for the deceased and surviving people.

Shatup Chamba, President, LGA said, "There has been a gap of two years be-

cause of COVID pandemic and this year we are very excited to hold the prayer with such a huge gathering of monks and nuns from different monasteries at one place. Earlier we used to organise the prayer at Chowkhang Vihara and starting from this year it will be held at Dharma centre."

On the third day of the prayer, May 23 rinpoches, monks, nuns and people from all walks of life circumambulated the Zanak maney. The statue of Maitreya Buddha and holy scriptures were also taken out during the circumambulation.

Ladakh Gonpa Association extended gratitude to UT administration for extending their help and support in renovating and completing the pending works of Dharma centre.

Leh to host 11th edition of Sustainable Mountain Development Summit

CEC convenes preliminary meeting with officials of Integrated Mountain Initiative

Chairman/CEC, LAHDC Leh, Advocate Tashi Gyalson discussing plans for the Mountain Legislator's Meet (MLM) at Council Secretariat.

Reach Ladakh Correspondent

LEH: The 11th Sustainable Mountain Development Summit (SMDS) is to be hosted in Leh, Ladakh this year. Chairman/CEC, LAHDC Leh, Advocate Tashi Gyalson discussed plans for the Mountain Legislator's Meet (MLM) at Council Secretariat on May 17.

CEC Tashi Gyalson highlighted the need to consider environmental concerns in decision-making given growing pressures from tourism and the fragility of the ecosystem in Ladakh. He further highlighted the problem of legacy waste that still needs to be dealt with in Ladakh.

President, Integrated Mountain Initiative, PD Rai expressed his gratitude to the Chairman, LAHDC Leh for having a first-hand view of SMDS at Darjeeling last year and accepting the baton at the closing session to host the next edition of the SMDS in Leh, Ladakh this year.

He further highlighted the importance

of having such seminars in the newly formed mountain Union Territory.

MP Ladakh, Jamyang Tsering Namgyal also highlighted the implications and concerns of climate change including receding glaciers, drying streams, increasing frequency of natural disasters, changes in weather patterns, and higher intensity of rainfalls in the region.

He further assured his assistance in advocating for the need for preserving the fragile environment in the mountain states of the country.

The meeting concluded with the remarks and feedback from the Councillors of LAHDC Leh and other officials present during the meeting.

Mountain Legislator's Meet is organised under the aegis of the Integrated Mountain Initiative annually, where legislators from across the mountain states deliberate on pressing issues concerning mountain states cumulatively.

Advisor reviews traffic management and enforcement

Digilocker documents to be accepted by Traffic Police Ladakh

Reach Ladakh Correspondent

LEH: Advisor, Ladakh, Umang Narula reviewed traffic management and enforcement in Ladakh on May 27.

Advisor stated that the documents such as driving licence (DL), registration certificate (RC), pollution-under-control (PUC) certificate, etc. on Digilocker shall be deemed to be legally recognized documents at par with the original documents.

Digilocker is a key initiative of the Ministry of Electronics & IT (MeitY) under 'Digital India' aiming at 'Digital Empowerment' of citizens by providing access to authentic digital documents to citizens' digital document wallet.

Advisor impressed upon the concerned officials to launch awareness drives to sensitize people regarding the online apps meant for storing details of vehicular documents. He reiterated that traffic rule violators shall be dealt sternly and fined as per the law.

While discussing the surge in road rage instances, the Advisor exhorted that the perpetrators must be prosecuted and punished.

SP Traffic, M R Giri apprised the Advisor about the current traffic scenario and road safety inter-

Advisor, Ladakh, Umang Narula reviewing traffic management and enforcement in Ladakh with concerned officers.

ventions taken by Traffic Police Ladakh. Awareness programmes at schools/colleges, training and modernization programmes, training for traffic refresher course, operation of modern traffic gadgets to jawans, highway patrol, accident rescue, CPR, medical evacuation by ITBP/ UTDRE, etc. were conducted. He also informed that Traffic Enforcement Squads, Traffic Personnel and highway patrol/ ambulance vehicles are deployed in both Leh and Kargil districts. Further, he informed about the measures taken for traffic calming & delineation at Khardung La top and installation of road furniture, signage, zebra crossing etc.

He also apprised the Advisor about the future plans, requirement of manpower and modern gadgets such as artificial intelligence (AI) based traffic management systems, etc. Fines collected from traffic violators by Traffic

Police Ladakh since its inception was also discussed in the meeting.

Commissioner/Secretary, H&UDD, Ajeet Kumar Sahu exhorted that wearing reflective jackets shall be made mandatory for the safety of traffic personnel and workers.

The Advisor directed the concerned officials to come up with DPR and action plans for the construction of a Model Bus Terminal with Integrated Taxi Stand, Mazda Stand, Local City Transport/ Van Transport; paid parking and improvisation plan to mitigate the perennial traffic issues.

The meeting was also attended by ADGP, Ladakh; SSP, Leh; Comm/Secy, RD&PR Dept; Superintendent of Police, Leh/Kargil; Deputy Commissioner, Leh/Kargil; Additional Secretary, Home Department and other concerned officials.

Ladakh to have 4 Bio-medical waste treatment facilities

Reach Ladakh Correspondent

LEH: Union Territory of Ladakh will have four Bio-Medical Waste Treatment facilities at Leh, Kargil, Nubra, and Zaskar each. This was shared in a review meeting chaired by the Principal Secretary, Health and Medical Education, UT Ladakh, Dr. Pawan Kotwal on May 26.

Principal Secretary, Dr. Pawan Kotwal said that the scientific disposal of biomedical waste through segregation, collection, and treatment in an environmentally sound manner reduces the adverse effect on the public and on the environment.

During the meeting, it was observed that the inappropriate disposal of bio-medical waste upsurges the risk of infection; encourages recycling of prohibited disposables and disposed of drugs, and develops resistant micro-organisms. The Principal Secretary was apprised that the quantum of waste generated in hospitals in Ladakh is estimated to be 1 kg per bed. Further, it was shared in the meeting that plots of land for setting up these Bio-Medical Waste Treatment Facilities have been identified and stand handed over to the Health Department in both the districts.

To treat the bio-medical waste generated in Ladakh, the Principal Secretary directed concerned officials to float a Request For Proposal (RFP) tender by the end of this month for setting up the Bio-Medical Waste Treatment Facilities.

Bio-medical waste includes human & animal ana-

tomical waste, treatment devices, and other materials used in health care facilities during research and treatment. According to the Bio-Medical Waste Management (BMW) Rules, 2016 the hospitals are required to put in place the mechanisms for effective disposal either directly or through common Bio-Medical Waste Treatment and disposal facilities.

The meeting was attended by Sajjad Mufti, Chief Wildlife Warden, UT Ladakh; Dr. Iftakhar Chowdhary, Additional Secretary/ Mission Director-NHM, CEO-SHA, Ladakh; Shrikant Balasahab Suse, Deputy Commissioner, Leh; Santosh Sukhadeve, Deputy Commissioner, Kargil; Dr. Motup Dorjey, Director Health, Ladakh; Dr. Mohd Raza, Director Sheep, and Animal Husbandry; Ruksana Parveen, District Officer, Ladakh Pollution Control Board; Dr. Tsewang Chorol, Medical Superintendent, SNM hospital, and officials of Health Department.

21 villages in Ladakh are now 100% tap connected under Jal Jeevan Mission

Reach Ladakh Correspondent

LEH: Ajeet Kumar Sahu, Commissioner/Secretary, PHE/I&FC, who is also the Chairman of the Executive Committee under Jal Jeevan Mission (JJM), reviewed the implementation of the JJM programme in the Union Territory of Ladakh on May 18.

It was informed during a meeting that the work of Jal Jeevan Mission is in full swing in Ladakh in all villages and 21 villages so far have achieved 'Har Ghar Jal' status by providing 100% tap connections to all Households. Four blocks i.e. Thiksey (82%), Saspol (77%), Thaisuru (54.5%), and Drass (56%) are the leading blocks in providing tap connections and they are expected to achieve 100% saturation soon. The first 20 villages and 2 blocks would be provided reward funds of ₹5 lakh and 25 lakh respectively on achieving 100% saturation. For that, the villages need to declare themselves 100% connected in a gram sabha meeting which is pending from many villages despite 100% coverage.

The vision of the JJM programme is for every rural household to have a drinking water supply in an adequate quantity of prescribed quality on a regular and long-term basis leading to improvement in living standards or rural communities. So far 34.61% of households in Ladakh are provided tap water connection. Besides, all the schools and Anganwadi centres of Leh have also been provided with tap water connections. Work of providing tap water connections to schools/AWCs of Kargil is also at an

Ajeet Kumar Sahu, Chairman of the Executive Committee under Jal Jeevan Mission (JJM) reviewing the implementation of the JJM programme in the Union Territory of Ladakh with concerned officers.

advanced stage and expected to achieve 100% saturation soon.

The Commissioner/Secretary issued directions to both the DCs and the PHE officers to ensure providing 100% tap connections even to all the community halls, Gram Panchayat Buildings, and health institutions. Besides, a handwashing facility and tap connection to toilets in all schools are also required to be provided. Sahu also directed the concerned officials to expedite the installation of solar water heaters in all Schools so that a warm water supply is available for handwashing. He also asked the Technical Education, and Skill Development Department to conduct National Skill Development Council-approved training programme for the PHE/I&FC Department's Daily Wagoners in Plumbing, Electrician, and Pump Operator skills.

JJM, PMU, UT Ladakh, Parikh Shukla gave the Commissioner/Secretary a detailed presentation on the works accomplished under JJM including the progress

of Functional Tap Connection coverage; status of piped water supply to Schools, Anganwadi centres, and other public institutions; Grey Water Management; Monitoring and Redressal of Public Complaints; Skill Development and Capacity Building Plan, and Operation and Maintenance Plan.

JJM, PMU apprised the Commissioner/Secretary that for redressal of public complaints a call centre will be set up within the next 20 days. The public can also address their grievances through a digital feedback system; a QR code will be displayed and the data will directly reach the respective officer, he added.

The meeting was attended by the Deputy Commissioner Leh/Kargil; Director DIHAR, Director of School Education; Director of Health; Director, Planning; Chief Engineer, PHE; Chief Engineer, I&FC; Chief Engineer, Mechanical; Superintending Engineer, PHE/I&FC Circles, Leh/Kargil; OSD, Technical Education, and Skill Development Department, and JJM, PMU.

LG attends brainstorming session on sustainable development of fisheries, aquaculture in Ladakh

MoU signed between Ladakh & ICAR-DCFR Bhimtal for long-term development of fisheries in region

Participants after completing 15-day fast food stall and Udyami training organised by the State Bank of India, Rural Self Employment Training Institute (SBI-RSETI), Leh.

Reach Ladakh Correspondent

LEH: Lieutenant Governor of Ladakh, RK Mathur attended the brainstorming session on Roadmap for Sustainable Development of Fisheries and Aquaculture in the Union Territory of Ladakh on May 21.

The session was organised by Indian Council of Agricultural Research (ICAR)-Directorate of Coldwater Fisheries Research (DCFR), Bhimtal-Uttarakhand, in collaboration with Department of Animal, Sheep Husbandry (ASH) and Fisheries, Ladakh, at Defence Institute of High Altitude Research (DIAR)-DRDO in Leh.

A Memorandum of Understanding (MoU) was signed between Department of ASH & Fisheries, Ladakh and ICAR-DCFR, Bhimtal, for the long-term development of fisheries in Ladakh.

LG Mathur appreciated ICAR-DCFR for preparing the roadmap for the development of fisheries in Ladakh in a short period of time. He stressed on the need to provide assistance to fish

farmers in Ladakh based on their needs. He requested ICAR-DCFR to look into the possibility of fish production in glacial and brackish lakes in Ladakh. He also requested to conduct an extensive scientific baseline study on fisheries in Ladakh and continued handholding during the initial years of development of fisheries in the region. He further requested for continuous scientific research works on best practices that can be implemented in Ladakh keeping the geographical conditions and climate of Ladakh in mind and also scientific experiments to find Ladakh-specific solutions for the fish farmers from Ladakh.

LG Mathur stated that some amendments are needed in the Pradhan Mantri Matsya Sampada Yojana (PMMSY) to enable fish farmers from Ladakh to avail benefits of the scheme. He requested ASH & Fisheries Department with the assistance of ICAR-DCFR to frame schemes under which fish farmers can earn up to Rs 10 lakh annually. He also requested for guidance

in providing testing kits to the fish farmers and also continued trainings and publicity programmes to promote fisheries among the people of Ladakh.

Mathur further requested for providing handholding for setting up laboratories. He also requested for technical solutions for natural migration of fishes in water bodies in Ladakh, particularly the NHPC dam area in Leh.

Director, ICAR-DCFR, Dr PK Pandey stressed on the need for handholding of fish farmers and the development of clusters in Leh, Kargil, Drass and Nubra in Ladakh. He emphasised on convergence of efforts, exploration, documentation and conservation of biodiversity resources in Ladakh.

Scientist, ICAR-DCFR, Dr Biju Sam Kamalam gave a detailed presentation on priority areas for the development of fisheries in Ladakh, including promotion, expansion and sustainable intensification of aquaculture; conservation of endemic, aquatic diversity and harnessing ecosystem service; capacity-building framework; short, mid and long-term targets, challenges, solutions/strategies, etc.

Deputy Director-General (DDG) Fisheries, ICAR, Dr JK Jena discussed technologies to promote fisheries, build up supply chain, provide training and skill-development programmes and the need to conduct a biodiversity assessment study in Ladakh.

Representatives from NHPC, ICAR-DCFR and states/UTs such as Arunachal Pradesh, Manipur, Jammu and Kashmir, Uttarakhand, Sikkim, Meghalaya and Ladakh took part in the brainstorming session.

New Road Sweeping Machine for Leh & Kargil

It can store 3 tonnes of solid waste and clean 10-15 km road length in an hour

Lieutenant Governor of Ladakh, RK Mathur flagging off Road Sweeping Machine.

Reach Ladakh Correspondent

LEH: Lieutenant Governor of Ladakh, RK Mathur flagged off Road Sweeping Machine procured for Municipal Committee Leh on May 18. He handed over the keys of the Machine to the President, Municipal Committee, Leh.

Commissioner Secretary, Housing and Urban Development Department, Ajeet Kumar Sahu briefed about the features of the Road Sweeping Machine such as the hydraulic brooms, vacuum suction and water sprinkler that would facilitate efficient and fast collection of garbage and cleaning of the roads. He informed

that the Road Sweeping Machine would increase the speed of the cleaning of streets/roads in Ladakh and help the Municipal Committee to deliver services more efficiently. He stated that a similar machine has been procured for Kargil.

The engineer from Kam-Avida, the solution provider company, informed that the Road Sweeping Machine can store 3 tonnes of solid waste and clean 10-15 km road length in an hour.

LG Mathur stated that based on the success of the Road Sweeping Machine in the winters, more such machines can be procured to keep Leh and Kargil towns clean.

Deputy Commissioner, Leh, Shrikant Balasaheb Suse; Director, Urban Local Bodies, Dr Zahida Bano; President, Municipal Committee Leh, Dr Ishay Namgyal; Executive Officer, MC Leh, Stanzin Rabgais were present during the flag-off ceremony.

Pending issues of School Education Department, Ladakh, taken up with J&K

Regularization and seniority list cases to be resolved soon

Reach Ladakh Correspondent

LEH: Principal Secretary, School Education Department, UT of J&K, Bishwajit Kumar Singh, and Commissioner/Secretary School Education Department, UT of Ladakh, Ajeet Kumar Sahu along with officials of the School Education Department discussed pending issues of the School Education Department between UT of J&K and Ladakh on May 25.

In the meeting, issues concerning pending funds and works under the Samagra Shiksha Abhiyan and Mid-Day Meal (Poshan Abhiyan) of the FY 2019-20 and before were discussed in detail.

Commissioner/Secretary, Ajeet Kumar Sahu highlighted the pending issues of regularization and seniority list of employees of the School Education Department Ladakh concerning the pre-apportionment period.

Principal Secretary, School Education Department, UT of J&K, Bishwajit Kumar Singh, and Commissioner/Secretary School Education Department, UT of Ladakh, Ajeet Kumar Sahu along with officials of the School Education department.

Taking note of the issues raised, Principal Secretary, Bishwajit Kumar Singh assured all help in resolving all the pending issues within a stipulated time.

The meeting was attended by the Director of School Education, UT Ladakh, Dr. Safdar Ali; Deputy Secretary, School Education, UT Ladakh, Abdul Majid Tantray, and other officials of SED Ladakh and J&K.

DC, Kargil, signs MoU with SSRDP Trust to impart vocational training to youth

Deputy Commissioner/CEO, LAHDC, Kargil Santosh Sukhadeve with Deepak Sharma Trustee, Sri Sri Rural Development Programme Trust (SSRDP).

Reach Ladakh Correspondent

KARGIL: Deputy Commissioner/CEO, LAHDC, Kargil Santosh Sukhadeve signed a Memorandum of Understanding (MoU) with Trustee, Sri Sri Rural Development Programme Trust (SSRDP), Deepak Sharma on May 18 to impart vocational

training to youth at Industrial Training Institute Kargil.

The objective of the MoU is to impart vocational training to youth in the field of electrical and solar energy sector and assist them in consequent gainful employment in the fields.

Sri Sri Rural Development Pro-

gramme Trust under the agreement will set up state-of-the-art laboratories for Electrician and Solar trade at Government ITI Kargil.

The Deputy Commissioner and Trustee, SSRDP also discussed scopes and means to boost entrepreneurship in the Kargil district.

DC Santosh further assured to provide both SHGs and individual aspirants an opportunity to boost entrepreneurship and production of local products in the district.

The SSRDP also proposed to adopt a few schools in border areas to provide leadership and personality development skills among students. They further proposed to provide training-cum-tour for bright and budding entrepreneurs at their Art of Leaving International Centre in Bengaluru.

L-G flags off advance life support ambulance, mobile medical units & supervisory vehicles

Reach Ladakh Correspondent

LEH: Lieutenant Governor of Ladakh flagged off the advance life support ambulance, mobile medical units and supervisory vehicles from Sonam Norboo Memorial (SNM) Hospital, Leh on May 28.

The fleet of vehicles includes two mobile medical units, two mobile medical units with machinery equipment, one advance life support (ALS) and three supervisory vehicles. The mobile care units have facilities such as equipment to test blood, electrocardiogram (ECG) and dental unit. The advance life support ambulance, with critical life support system, will be used to transfer patients who have been referred for treatment to hospitals outside Ladakh. The vehicles have been purchased under Special Development Package (SDP), State Capex and Changthang Develop-

ment Package.

LG Mathur stated that the mobile medical units would help to screen the public health to detect diseases such as blood pressure, cancer, diabetes, etc. and provide health facilities to them, especially the people residing in remote areas of Ladakh. He further stated that the mobile medical units would enable to monitor the health status and disease burden of the people of Ladakh and facilitate in providing medical facilities at the Health and

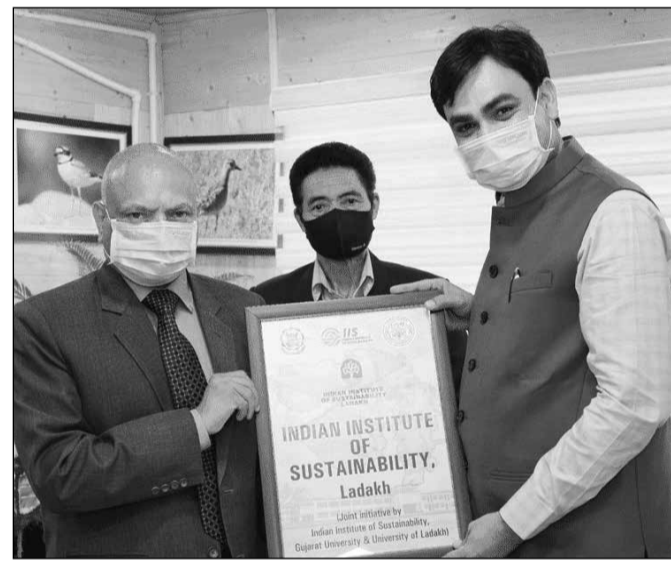

Wellness Centres, SNM Hospital in Leh and District Hospital in Kargil based on the needs of the people of Ladakh.

He further stated that these vehicles would be sent at fixed intervals to provide medical services, particularly to the people residing in remote areas of Ladakh.

He expressed hope to see significant improvement in the infrastructure of the medical sector of Ladakh with the addition of these vehicles.

Director Indian Institute of Sustainability Gujarat University meets LG Mathur

Discusses development of entrepreneurial skills among students of Ladakh

Reach Ladakh Correspondent

LEH: Director, Indian Institute of Sustainability (IIS), Gujarat University, Sudhanshu Jangir met Lieutenant Governor of Ladakh, RK Mathur, at Raj Niwas on May 28.

Director IIS, Gujarat University briefed about Gujarat University and its famous alumni, including Sardar Vallabhai Patel, Prime Minister Narendra Modi and Home Minister Amit Shah. He apprised that 60 students from Ladakh, including 30 each from Leh and Kargil, visited Gujarat University for study-cum-exposure tour.

He shared that the Memorandum of Understanding (MoU) signed between University of Ladakh and Indian Institute of Sustainability, Gujarat University, will focus on four areas, viz. agricultural entrepreneurship/agripreneurship, water conservation, sustainable tourism and providing free education and lodging to students from Ladakh to earn a degree and to develop entrepreneurship qualities.

He further requested to set up a Gujarat desk in Ladakh to facilitate the development of students of Ladakh as entrepreneurs through various training

programmes, etc. He shared that Gujarat University would provide support in organising workshops and bringing practitioners/academicians for water conservation, guide in organic and natural farming, create a framework for waste management and train women self-help groups (SHGs) to scale up production designs, etc.

LG Mathur stated that the four focus areas of IIS Gujarat University are critical for Ladakh and expressed hope for more development in these areas in a specific and time-bound manner. He requested Gujarat University to develop entrepreneurial skills among Ladakhi students to enable them to become self-sufficient so that they can provide job opportunities for others and contribute to the development of Ladakh.

LG Mathur spoke about the potential in animal, agriculture/horticulture and handicraft/handloom sectors and the role of Gujarat University as a leading university to provide training to aspiring entrepreneurs from Ladakh in these sectors. He stressed on the need for a deep and sustained relationship between Gujarat University and University of Ladakh.

70 percent of households in Ladakh covered under PMJAY scheme

...Continued from page 1

were asked to open Aadhar card centers in their respective District hospitals to generate new Aadhar cards and register and link the existing ones with their respective mobile numbers so that the registration of beneficiaries under the PMJAY and UHC Schemes could be done either by using Aadhar data or through the One-Time Password (OTP). He said that newborn babies in the hospitals can also be issued the Golden Health card right at birth.

The Principal Secretary urged both Deputy Commissioners, Chief Medical Officers, and Block Medical Officers to target the distribution of cards block-wise and Tehsil-wise and complete the task by June 21, 2022.

To receive a Golden card, the families must have a Ration card and Aadhar card. If their names are not included in the SECC data or if their names are mentioned wrongly in the SECC registration, they should go to their nearest Tehsildar's office, file an application, and submit their documents for inclusion under the PMJAY and UHC schemes and for correcting their names respectively.

The meeting was attended by Dr. Iftakhar Chowdhary, Additional Secretary/ Mission Director-NHM, CEO-SHA, Ladakh; Balasaheb Suse, Deputy Commissioner, Leh; Santosh Sukhadeve, Deputy Commissioner, Kargil; Dr. Motup Dorjey, Director Health, Ladakh; Dr. Norzin Angmo, Chief Medical Officer, Leh; Shabbir Hussain, State Programme Manager; Deachen Choskit, State IT Consultant; and Attaullah, Tehsildar, Leh.

Why leaders should be mindful, selfless, and compassionate

By His Holiness the 14th Dalai Lama

Over the past nearly 60 years, I have engaged with many leaders of governments, companies, and other organizations, and I have observed how our societies have developed and changed. I am happy to share some of my observations in case others may benefit from what I have learned.

Leaders, whatever field they work in, have a strong impact on people's lives and on how the world develops. We should remember that we are visitors on this planet. We are here for 90 or 100 years at the most. During this time, we should work to leave the world a better place. What might a better world look like? I believe the answer is straightforward: A better world is one where people are happier. Why? Because all human beings want to be happy, and no one wants to suffer. Our desire for happiness is something we all have in common.

But today, the world seems to be facing an emotional crisis. Rates of stress, anxiety, and depression are higher than ever. The gap between rich and poor and between CEOs and employees is at a historic high. And the focus on turning a profit often overrules a commitment to people, the environment, or society.

I consider our tendency to see each other in terms of "us" and "them" as stemming from ignorance of our interdependence. As participants in the same global economy, we depend on each other, while changes in the climate and the global environment affect us all. What's more, as human beings, we are physically, mentally, and emotionally the same.

Look at bees. They have no constitution, police, or moral training, but they work together in order to survive. Though they may occasionally squabble, the colony survives on the basis of cooperation. Human beings, on the other hand, have constitutions, complex legal systems, and police forces; we have remarkable intelligence and a great capacity for love and affection. Yet, despite our many extraordinary qualities, we seem less able to cooperate.

In organizations, people work closely together every day. But despite working together, many feel lonely and stressed. Even though we are social animals, there is a lack of responsibility toward each other. We need to ask ourselves what's going wrong.

I believe that our strong focus on material development and accumulating wealth has led us to neglect our basic human need for kindness and care. Reinstating a commitment to the oneness of humanity and altruism toward our brothers and sisters is fundamental for societies and organizations and their individuals to thrive in the long run. Every one of us has a responsibility to make this happen.

What can leaders do?

Be mindful. Cultivate peace of mind. As human beings, we have a remarkable intelligence that allows us to analyze and plan for the future. We have language that enables us to communicate what we have understood to others. Since destructive emotions like anger and attachment cloud our ability to use our intelligence clearly, we need to tackle them.

Fear and anxiety easily give way to anger and vio-

lence. The opposite of fear is trust, which, related to warm heartedness, boosts our self-confidence. Compassion also reduces fear, reflecting as it does a concern for others' well-being. This, not money and power, is what really attracts friends. When we're under the sway of anger or attachment, we're limited in our ability to take a full and realistic view of the situation. When the mind is compassionate, it is calm and we're able to use our sense of reason practically, realistically, and with determination. Be selfless

We are naturally driven by self-interest; it's necessary to survive. But we need wise self-interest that is generous and cooperative, taking others' interests into account. Cooperation comes from friendship, friendship comes from trust, and trust comes from kindness. Once you have a genuine sense of concern for others, there's no room for cheating, bullying, or exploitation; instead, you can be honest, truthful, and transparent in your conduct. Be compassionate

The ultimate source of a happy life is warm heartedness. Even animals display some sense of compassion. When it comes to human beings, compassion

can be combined with intelligence. Through the application of reason, compassion can be extended to all 7 billion human beings. Destructive emotions are related to ignorance, while compassion is a constructive emotion related to intelligence. Consequently, it can be taught and learned.

The source of a happy life is within us. Troublemakers in many parts of the world are often quite well-educated, so it is not just education that we need. What we need is to pay attention to inner values.

The distinction between violence and nonviolence lies less in the nature of a particular action and more in the motivation behind the action. Actions motivated by anger and greed tend to be violent, whereas those motivated by compassion and concern for others are generally peaceful. We won't bring about peace in the world merely by praying for it; we have to take steps to tackle the violence and corruption that disrupt peace. We can't expect change if we don't take action.

Peace also means being undisturbed, free from danger. It relates to our mental attitude and whether we have a calm mind. What is crucial to realize is that, ultimately, peace of mind is within us; it requires that we develop a warm heart and use our intelligence. People often don't realize that warm heartedness, compassion, and love are actually factors for our survival.

Buddhist tradition describes three styles of compassionate leadership: the trailblazer, who leads from the front, takes risks, and sets an example; the ferryman, who accompanies those in his care and shapes the ups and downs of the crossing; and the shepherd, who sees every one of his flock into safety before himself. Three styles, three approaches, but what they have in common is an all-encompassing concern for the welfare of those they lead.

The article was published in the Harvard Business Review February 20, 2019

The World of Juniors

Where do Dart frogs get their Poison?

Poison Dart frogs inhabit the rain forests of Central and South America. Their brilliant colours make them look like children's playthings, but they represent some of the most naturally toxic animal on the earth. Human have learned to make use of their poison. The golden poison dart frog, for e.g. Grow only 2 inches long but contain enough venom to kill 10 human beings. The Embera people of western Columbia use this frogs venom for hunting, spreading a tiny amount on a dart that they propel by blowguns into their prey.

Scientists suspect that poison dart frog gain their toxicity from alkaloids in the food they eat, including ants and mites. Poison dart frogs raised in captivity and isolated from their native diet do not develop venom

DID YOU KNOW

- Some 7000 earthworm's species live at all soil depth in most temperate and many tropical environment.
- The Baobab tree of Africa can store 25000 gallons of water in its trunk and lower branches.
- One Ragweed plant can produce 1 billion pollen grains; a grain can travel 100 miles by wind.
- A Trap-jaw ant snap shut its mandibles 2300 times faster than the blink of an eye.

- The Weddell seal dives to 1900 feet and can stay underwater for upto an hour.
- Sea otters have up to a million hairs/square inch of skin.
- Einkorn, an ancient wheat was gathered by human in the stone age, 10,000 BC, and possibly earlier.
- Bronze sculpture, virtually indestructible, may outlast all other human artwork.
- Early artists use stone tools to engrave shape into rock wall. They use pigment from hematite, manganese dioxide, and evergreen to achieve red, yellow, brown, and black colour. Brushes were made from feather, leaves, animal hair. Artists also use blowpipe to spray paint around hand and stencils.

An attempt to define 'happiness'

Next to 'love', the most talked-about subject in our daily lives maybe 'happiness'. The state of happiness is conditioned by several factors, and 'love' is the biggest factor that makes one happy. Therefore, in a way, one can say that love and happiness can't exist as 'independent qualities'.

The intention here is not to go that way, but to seek a convincing response to the oft-asked query: What is happiness? You may get many versions of the definition of happiness by different thinkers, and each one of them maybe correct in his/her own way. Some of them maybe even contradictory in nature because it all depends on one's surroundings and background.

But I have a 'way of measurement' to see the feeling of happiness in an individual, and that could lead us to a universal definition. It is quite simple and easy to apply. It is the word 'good' that will take care of our query. If one feels good any moment, any day, then that could be the closest 'coming' to the state of being happy.

From my point of view and experiences of decades, my happiest moments were those when I felt extremely good, on cloud nine, as it were. I can say with great conviction that those were my happiest moments. One such moment was my first date with the girl who later came into my life as my life-partner. Secondly, those moments marked by good feelings when my writings were used in schools and universities. And thirdly, when I got a job that was among the three of my topmost targets in life.

So, I must say a feeling of goodness takes you over when one gets a sense of satisfaction over something done or achieved. True, one can also be happy when a catastrophe that was to happen does not happen. Quite a great surprise that the 'crushing fall' does not happen because of certain reasons not clearly understood. We ascribe such a disastrous event not happening to our good luck!

In Conversation with Wangchok Namgail, Young India Fellow

Interviewed by Stanzin Dasal

Q. First, congratulations on being accepted at Geneva Graduate Institute, Switzerland. Tell us about yourself and how you feel about making it to the Geneva Graduate Institute?

Thank you so much! I studied till class 10th at the TCV school and then pursued a science stream at KV school in Delhi. After that, I got admission to NIT Delhi. However, as the first two-three semesters went by, I realized I was not interested in engineering. I continued for a year, but it was a difficult phase with low self-esteem and confidence. I felt like a failure, and I questioned my capability. Fortunately, I came across Live to Love and found an opportunity to engage, volunteer, and later work on various initiatives. This helped me accept my failure with an open heart and realize many of my strengths. I regained my confidence and self-esteem.

I was blessed to be able to contribute to my community through Live to Love's projects while also rising back from a dark phase. It was during this time when I gathered courage and pursued my studies again in Social Work. During the pandemic, I realized I wished to make a more powerful impact and joined the Young India Fellowship at Ashoka University. It's been an amazing experience where I got to meet so many wonderful people and hear different perspectives. I would say, it was the launchpad for me to dream bigger and it helped me significantly in getting into the Geneva Graduate Institute. I am very happy and proud to have been accepted there.

Q. Brief us about the Geneva Graduate Institute. How did you apply for it and what are the challenges you faced?

I never thought I could apply or get into a school like this. At the fellowship, I saw my friends apply to such places, and somewhere deep down, I felt like trying. I was not confident and so quietly applied to the school. I couldn't apply for more since the application fee itself is expensive. My institution helped me get a language exam waiver, and my amazing professors wrote me kind recommendation letters. Apart from that, the Letter of Motivation plays the most important role in the application. I spent time working on it and I believe the year-long course on Critical Writing at the Fellowship has equipped me to write it in a better way.

The Geneva Graduate Institute of International and Development Studies is one of the most reputed schools in the world, offering post-graduate master and Ph.D. programmes. It has strong ties with

the biggest international organisations such as UNO, WHO, WTO, WIPO, Red Cross, etc. and that's why it is considered an opportunity hub. It is also known for having produced seven Nobel laureates, many heads of state, ambassadors, and so on.

Q. We have seen that you are crowdfunding to pursue a master's in international and Development Studies at the Geneva Graduate Institute. What made you go for it and how is the response?

Indeed. Like many other study-abroad programmes, the cost of this course in Geneva is significant. I had applied for financial assistance from the institute but unfortunately didn't receive any. There is no way my family can afford this programme. I've been looking for scholarships for weeks, but in vain. I also tried to ask for loans, but I could not fulfill the criteria, like having decently salaried parents as co-applicants. Confused, I shared my situation with my friends, and they encouraged me to start a campaign and offered to help. This opportunity means a lot to me, and I decided to come out of my comfort zone and give this last resort a shot. Although asking people for money publicly is not an easy task, a few weeks into the process, I feel that it may be worth it. This could become an example and encouragement for students from less privileged backgrounds to pursue their dream, with the support of their community. I feel fortunate and overwhelmed by the support and encouragement from all over. The collaborative effort of a lot of them is making me feel that this rather ambitious aim is achievable.

Q. Share with us your plan after completing your studies in Geneva.

The concerns, voices, ideas, and knowledge from the mountains are hardly heard on larger platforms. The interventions regarding our issues come prepared from somewhere else. I feel it is important for Ladakhi youth to make Ladakh's voice heard, contributing to policymaking. During and after my studies, I hope to raise Ladakh's issues, specifically those about the environment and climate so that we can find innovative approaches toward sustainable development.

Q. What's your advice to the many Ladakhi youths who want to pursue their studies abroad.

The biggest issue we face is lack of confidence. It happens to almost all of us (including me) when we shift to big cities for our studies. It sometimes becomes a lingering trauma. I would advise Ladakhi students to accept and embrace this discomfort, rather than suppress it. We should not think of ourselves as unworthy. If we have driven and confidence, then all other factors will find a way of falling into place.

MESSAGE TO THE READERS

“Don't rush blindly! Try to figure out why you're doing what you're doing. When you're aware of the 'Why', even slightly, the journey becomes much more joyful. Confidence and self-esteem also bloom!”

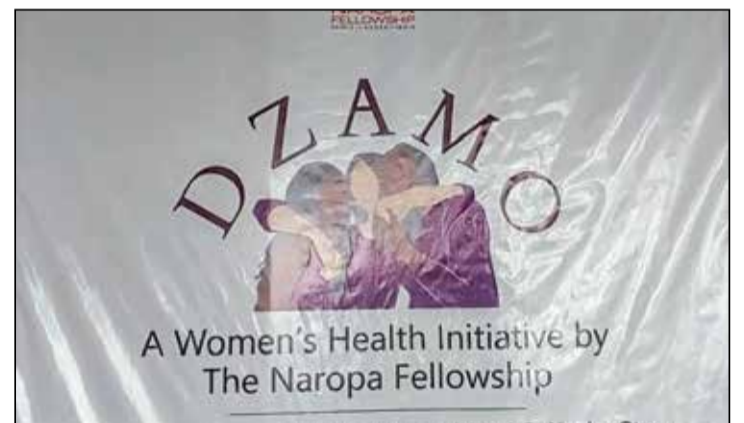

Fortnight Highlights

With an aim to motivate the youth and spread awareness about job service avenues in the Indian Airforce, a team from IAF held an interactive session with the students and faculty members of GDC Kargil.

Animal Husbandry department launched veterinary mobile ambulance services in Leh on May 19. His Eminence Thuksey Rinpoche along with CEC, LAHDC, Leh, Tashi Gyalsen; Secretary, Ravinder Kumar; DC, Shrikant Balasaheb Suse flagged off the Ambulances from Animal husbandry office complex, Leh.

Dzamo initiative comes after extensive survey conducted by Naropa Fellows across Ladakh to understand the state of women's health and common menstrual practices in the region. Cloth sanitary napkin manufactured by Bhagini Nivedita Gramin Vigyan Niketan in Maharashtra, an NGO supported by Indians for collective action in the United States was distributed.

A delegation from Zaskar led by Member of Parliament, Ladakh, Jamyang Tsering Namgyal, and Councillor, Cha, Stanzin Lakpa met Lieutenant Governor of Ladakh, RK Mathur, at Raj Niwas. Requested intervention in the construction of a multipurpose utility centre in Karsha village for Buddhist studies and declaring Zaskar as a separate district at the earliest.

80th Birth anniversary of His Eminence Thiksey Rinpoche Nawang Jamyang Chamba Stanzin celebrated with great enthusiasm at Shesrab Skidsal Ling library and learning centre, Thiksey.

Director ICAR-NGABR calls on L-G

Informs about ongoing work to make Ladakh 1st Zero Non-Descript AnGR region of India

Reach Ladakh Correspondent

LEH: Director, Indian Agricultural Research Institute (ICAR) National Bureau of Animal Genetic Resources (NBAGR), Karnal, Dr BP Mishra and Principal Secretary, Animal Biotechnology, ICAR-NBAGR, Dr Manishi Mukesh met Lieutenant Governor of Ladakh, RK Mathur, at Raj Niwas on May 26.

Director, ICAR-NBAGR, Dr Mishra briefed about their work on the identification, characterisation, registration, documentation, monitoring and conservation of animal genetic resources. He apprised about the Mission towards Zero Non-Descript AnGR of India that emphasises on the significance of characterisation and registration of the non-descript population of the country along with their conservation and improvement.

Dr Mishra informed about their plan to make Ladakh the first Indian Zero Non-Descript AnGR region. He also briefed about the ongoing process to identify and characterise new/non-descript pop-

ulation of Ladakh such as Chang-khi (wild dogs found in the Changthang area), yak and donkey. He informed that the native cattle from Ladakh called 'Ladakhi cattle' was recognised as the 42nd cattle breed of India.

Dr Mishra informed that Ladakhi cattle are a natural source for A2 milk. He apprised about the presence of hypoxia inducing factor-1 (HIF-1) and its regulatory genes in Ladakhi cattle that produce homeostatic responses to hypoxia in higher altitudes of the Trans-Himalayan region.

LG Mathur suggested that the milk of Ladakhi cattle and yak may be promoted among tourists as the milk enriched with anti-oxidant and hypoxic properties to promote high-altitude areas of Ladakh. He stated that this would also enable locals to earn more money for their livelihood. He also suggested that ICAR-NBAGR may look at the breed of dzo/dzomo for their identification and characterisation.

LG Mathur highlighted the commercial benefits of identification, registration and characterisation of Chang-khi and Ladakhi cattle as the new/non-descript population of Ladakh, especially among aspiring entrepreneurs, through value addition. He stated that a breeding programme may be conducted for Chang-khi once they are recognised as a native breed of Ladakh.

Free SSC coaching begins in Kargil

CEC, Hill Council, Kargil, Feroz Ahmad Khan addressing the gathering during the free SSC coaching scheme during an orientation program for the selected candidates at Syed Mehdi Auditorium Hall, Kargil.

Reach Ladakh Correspondent

KARGIL: CEC, Hill Council, Kargil, Feroz Ahmad Khan inaugurated the free SSC coaching scheme at Syed Mehdi Auditorium Hall, Kargil on May 23.

The LAHDC and District Administration Kargil took the initiative of free SSC coaching to familiarize the aspirants with the new examination pattern of the SSC. Sincere and talented students, after free and fair examination, have been selected for the free coaching to ensure a maximum result in the upcoming Ladakh recruitments.

Speaking on the occasion, CEC Kargil said that the coaching has been provided under the subsidy component of the LAHDC where the cost is shared between the government and beneficiary in a 75:25 percent ratio respectively. Notably, to minimize the burden on students, the 25 percent share is also provided by the District Administration from Corporate Social Responsibility (CSR) fund.

Quoting authentic sources, CEC Khan said the applications for SSC posts will be notified within a week. Accordingly, the examination is also ex-

pected to be held within two months. Regarding the district cadre posts, CEC said the District Administration is working out the vacancies that will also be notified as soon as possible.

Khan further assured to conduct of free, fair, and transparent examination in district cadre posts. He said the LAHDC is emphasizing keeping the PSC for Ladakh common with JK-PSC until a separate PSC is established for Ladakh for ease of the aspirants. He further appealed to the UT Administration to notify Ladakh Residence Certificate rules for Gazetted Posts of Ladakh.

DC, Kargil gave tips and tricks to face the competitive exams and also advised the aspirants to remain concentrated on their studies till the goal is achieved. He assured that the monitoring team will monitor and supervise the overall functioning of the coaching and the progress of the aspirants.

As a strategy to remain concentrated for the examination, DC advised aspirants to focus on two things—sleep at night and wake up in the morning with a desire to qualify for the exam.

Addressing the aspirants, Coaching Monitoring Team members viz DTO Kargil, Iftikhar Hussain; SDM Drass, Anwar Hussain; ALC Raziya Khatoon and Headquarter Assistant to DC Kargil Arifa Iqbal emphasized exam preparation strategy, study time management, exam time management, and other tips and tricks to qualify the exams.

They all assured full support and guidance to the aspirants from time to time with their supervision. Ladakh Academy team and teacher Zubair Khan while speaking on the occasion appraised aspirants on timing, class schedule, and syllabus of the coaching.

Solid Waste Management plant to be installed at Kurbathang

Reach Ladakh Correspondent

LEH: A Municipal Solid Waste Management plant is to be installed at Kurbathang, Kargil. The plant will include infrastructure for landfills, converting waste to energy, and recycling or composting.

Commissioner/Secretary, Housing and Urban Development Department, UT Ladakh, Ajeet Kumar Sahu reviewed the progress of work on the SWM plant. The Consultant agency gave the Commissioner/Secretary a detailed presentation on the engineering and architectural design; construction, installation, commissioning, and operation and maintenance of the Municipal Solid Waste Management plant and allied works in Kurbathang, Kargil.

The Solid Waste Treatment plant can divide solid

waste into different parts, and further process it into valuable products. The system is designed to treat and process dry, wet, and mixed waste. The plant will not only eliminate waste pollution but will also help keep the environment clean.

The Consultant agency apprised the Commissioner/Secretary that a topographical and technical survey of the site had been completed. It was proposed that a recreational area for the public, at the site such as a café, will also be designed. The café will be constructed and operated on the waste management model; the official added.

Ajeet Kumar Sahu said that plastic waste can be managed most effectively at the local level by using it for the construction of road surfaces; paper and fabric waste can be reused to make recycled paper. The Commissioner/ Secretary directed the Consultant agency to complete the work within 7 months and assured them all support.

The meeting was attended by Deputy Commissioner, Kargil, Santosh Sukhadeve; Director, Housing and Urban Development Department, Dr. Zahida Banoo; Project Manager, PMU for Smart City, Rahul Singh; Infrastructure Consultant, Harsh Jadav, and Consultant agency officials.

One-day field trip to Karsha, Padum panchayats to study flagship schemes held

Reach Ladakh Correspondent

ZANSKAR: One-day field trip to Panchayat halqa Karsha and Padum for a detailed study of government flagship schemes like MGNREGA and SBM held on May 27.

The field trip was organised by the Department of Political Sci-

ence, Government Model Degree College Zanskar. It was aimed to enhance critical thinking, and theoretical knowledge and provide practical knowledge to the students of political science.

HOD Political Science Tsewang Gailtsen briefed about the role of the Panchayati Raj system, its

origin, and its functions.

BDC Chairman Lobsang Namgail shared his experiences with the Panchayati Raj system in Zanskar and also highlighted the various schemes in Karsha Block.

The students also visited Padum Panchayat Halqa and interacted with BDC Chairman, BDO, and Sarpanches at Panchayat Ghar Padum.

Lobsang Dolma Sarpanch Ufti-Pibiting highlighted the role and schemes of the Panchayat. She also stressed the importance of Panchayat in the current scenario and the role of women in politics and the political system.
